PART I - NON-CONFIDENTIAL FACTS AND ADVICE

Decision required – supporting report

1. Introduction and background

The Mayor is publicly credited with creating and driving the Big Dance initiative and supersizing the programme across the UK. The Big Dance Commissions for Trafalgar Square have been the centrepiece for the programme in —2006, 2008, 2010 and 2012.

At the outset, the original plan was to procure a production company based on a budget and experience previous projects. A production management brief was sent out in February and there was no response within the deadline.

However, it quickly became clear that the technical requirements of the project were highly complex and involves a number of extremely specialised disciplines (outdoor broadcast satellite up and downlinks, camera technicians, editors, technical and creative director etc) and very little actual event production (exception some basic infrastructure). Even the lighting requires the input of an OS company, as lighting for filming will be quite different from what is required for a simple live public event. In addition, the project was more expensive than originally conceived and would not be possible to achieve through the original tender brief and required multi-services.

As a result the decision by officers in Culture and Events was taken to review the approach to the delivery of the project and as a result pursue the film production option to secure the delivery within the budget available through the Single Source option agreed by the GLA and TFL.

The requirement is to have a tried and tested company which is capable of orchestrating both the artistic direction, the filming and the ODB project planning as well as producing the Risk Assessments, Method Statements and Build schedules etc necessary for the Trafalgar Square Filming Permission anyway.

2. Objectives and expected outcomes

The appointment of a specialist company is key to the successful delivery of this high profile iconic GLA programme. Given the specialist requirements of this unusual programme, there is significant reputational risk to the GLA and partners if this company do not deliver. Management of such a high profile event on this scale requires an experienced film company with a track record in dance events.

Officers acknowledge that such services should ordinarily be called off from a framework or procured competitively in accordance with section 4.1 of the GLA's Contracts and Funding Code (Code). However, section 5 of the Code also provides that exemptions from this requirement may be approved where the proposed supplier has been involved in a specific current project or where continuation of existing work which cannot be separated from the new project/work.

As noted in section one above no responses were received to the initial tendering process based on this project being an 'event'. However, through this process and discussions it became clear that the main focus of the project was to produce a film of an 'event' and the Events Framework did not have relevant suppliers which could deliver a high quality creative film.

Leopard Films have previously delivered Big Dance Trafalgar Square 2012 which was a commission for Channel 4 requiring a specialist mass dance film production company involving 1,000 dancers and an international choreographer. The director Ross McGibbon is a highly skilled experienced dance film producer. In addition, Leopard Films have made the recent film with Darcey Bussell — a key figure/presenter for this project as the Big Dance Special Ambassador and is on the board of the Sydney

Dance Company. The result of this partnership has led to massive cost savings because the company have a track record in this area of film production and have been able to draw on experts at cost.

As a consequence officers are of the view that because of Leopard Films' experience of dance films, working with the GLA and producing mass dance event – Big Dance 2012 on Trafalgar Square it is unlikely that any other provider would be able to provide a more economically advantageous bid for the work required, other providers having to familiarise themselves with the detail and particular nuances of the GLA's requirements and incurring greater time (and cost in doing the same). Approval of an exemption from the requirement to call off such services from a framework or competitively procure such services is therefore, sought on the basis that Leopard Films has been involved in a specific current project.

3. Equality comments

This project is fully accessible and open to all Londoners to participate.

4. Other considerations

This event will be staged under the Trafalgar Square Filming Licence. This licence is managed by the Facilities Management Team at the GLA, in conjunction with Westminster City Council Special Events and Filming.

Leopard Films will be responsible for gaining full approval for this activity from the relevant parties. This may be dealt with via the LOPSG process, or remotely on submission of documentation satisfactory for the purpose. This will include a Filming Application and any applicable WCC building control approval.

Leopard Films will be responsible for obtaining all other necessary permissions, licenses and insurances regarding the event and shall provide the GLA with copies of the same. Leopard Films shall ensure that conditions of such are fully complied with.

The GLA as Premises Licence holder for Trafalgar Square will have a presence on Trafalgar Square throughout the "event" and in part during the build and de-rig process, as appropriate. Heritage Wardens will be present throughout.

The GLA needs comfort that all risks have been minimised and are dependent on a trusted relationship with high calibre delivery partners to deliver this high profile project and film.

5. Financial comments
