Live data was extracted from METMIS and CRIS on the 15th and 16th of October 2014  
Live data is subject to change as records are reviewed and updated.

**Joanne McCartney**

The third question is answered by a count of all notifiable offences by screening decision for the 9 month period 01/01/2014 to 30/09/2014  
After an initial review an officer will screen OUT a crime for further investigation if they believe there is little chance of identifying the suspect or sufficient evidence for solving the crime.  
Additionally investigations that have exhausted all avenues can also be screened out.

**Notes**

Live data was extracted from METMS and CRIS on the 15th and 16th of October 2014  
Live data is subject to change as records are reviewed and updated.  
This report contains six sets of data:

**Caroline Pidgeon**

The data for the question posed by Caroline Pidgeon, consists of counts of offences under the Dangerous Dogs act 1991.  
The two offences listed under this act are:

Initial Classification	Offence	Expansion
008/21	Actual Bodily harm and other injury	Owner or person in charge allowing dog to be dangerously out of control in a public place injuring any person.
008/22	Actual Bodily harm and other injury	Owner or person in charge allowing dog to enter a non-public place and injure any person.
111/00	Offences In Relation To Dogs	Offences in relation to dogs.
111/02	Offences In Relation To Dogs	Failure to comply with an order to keep a dog under proper control, etc.
111/12	Offences In Relation To Dogs	Breeding or breeding from a fighting dog.
111/13	Offences In Relation To Dogs	Selling, exchanging, offering, advertising or exposing for sale a fighting dog.
111/14	Offences In Relation To Dogs	Giving or offering to give a fighting dog.
111/15	Offences In Relation To Dogs	Allowing a fighting dog to be in a public place without a muzzle or lead.
111/16	Offences In Relation To Dogs	Abandoning or allowing to stray, a fighting dog.
111/17	Offences In Relation To Dogs	Possession without exemption of a pit bull terrier or Japanese tosa, or other designated fighting dog.
111/18	Offences In Relation To Dogs	Owner or person in charge allowing dog to be dangerously out of control in a public place - no injury.
111/19	Offences In Relation To Dogs	Owner or person in charge allowing dog to enter a non public place causing reasonable apprehension of injury.
111/20	Offences In Relation To Dogs	Failing to give up a dog for destruction or having custody of a dog whilst disqualified.

Offence codes beginning 111 are non notifiable crimes. The MPS is not obligated to record non notifiable offences on CRIS and figures shown may not be representative of the volume of offences occurring

This data set is for calendar year periods 2010 - 2014, where 2014 being the current year covers only January to September.  
As this most recent year is incomplete, it should not be compared with other completed year period.  
The data is split by owning borough.

**Andrew Dismore**

In answer to questions posed by Andrew Dismore, a count of Confirmed and Classified Offences which fall into the definition of MOPAC 7 Offences.  
Note that Violence with injury is a definition and a subset of specific Violence and Against the Person Offences.

This data includes two subsets:

First a count of Offences where there is recorded on the crime record at least one suspect or accused custody number which would indicate whether a person was arrested for an offence on that record. Note that that offence may not be the one listed (as a single crime record can have multiple different offences listed on it and its possible arrests were not recorded as standard are recorded in a separate custody management system).

Second a count of Offences where the crime record has an event clear up listed on the record of "Charge". This indicates that the MPS has detected the Offence and at least one person has been charged on that record. Note this figure will not match the People Proceeded against data as multiple people can be charged on a single record for the same offence.

As this group of question are actually a number of sub questions this report has been displayed breaking down each of the questions into its parts and grouped together by Borough for ease of reading.

**Joanne McCartney**

In answer to Joanne McCartney, a count of all Victims of notifiable offences was returned for the financial year 2013/14.  
The victim age is based on the age of the victim at the time of reporting the crime. A victim age of zero may indicate a person under 1 year old, but also may denote a victim whose age is unknown or has been omitted in error.

The second data set to answer, Joanne McCartney, is a count of People Proceeded against (PPA) for those offences as above where the proceedings type is Caution.  
This count is based on people cautioned between 01/10/2013 and 30/09/2014.

The customer may note that there are 6 cautions listed for the offence of Rape.  
All 6 cautions are Youth Cautions for suspects aged 18 or under.  
The decision to caution a rape suspect is given careful consideration of the circumstances and of whether the suspect poses a danger to the public.  
Furthermore, as Rape is a serious offence, the CPS's Rape And Serious Sexual Offence team must give authorisation for any decision to caution a Rape suspect.

An example of when this might happen is in a case of sexual activity between a boyfriend and girlfriend who are both under aged, or where a child suspect has learning disabilities.

The Caution records the individual and their criminal act on the Police National Computer and forces the suspect to acknowledge their guilt in the eyes of the law, but doesn't necessarily affect a child in the same way that a conviction would. Should the child re-offend the caution will be taken into account.

The third question is answered by a count of all notifiable offences by screening decision for the 12 month period 01/10/2013 to 30/09/2014  
After an initial review an officer will screen OLT a crime for further investigation if they believe there is little chance of identifying the suspect or sufficient evidence for solving the crime.  
Additionally investigations that have exhausted all avenues can also be screened out.

**Navin Shah**

The data sets that answer questions from, Navin Shah, consist of a count of offences from CRIS Records that have been flagged as involving Islamophobic Hate crime (branch flag IS).  
The data set is limited to offences owned by Brent and Harrow boroughs.  
The data is for the period 01/04/2009 to 30/09/2014, covering 5 full financial years (FY) and the 2014/15 financial year up to 30/09/2014.  
As this most recent financial year is incomplete, it should not be compared with other complete FY periods.

**In respect to all questions**

Some applicants asked for Conviction and tried in court data. However without manually searching each records PNC record the MPS are unable to determine whether the case was heard at court and what the court result was. The numbers of records involved make this unfeasible.  
Consequently questions pertaining to convictions data have been excluded from this report.

In summary, the Mayor's questions answered within this report are:
