

# Report to the Assembly on the Mayor's Draft Consolidated Budget for 2020-2021

**Report to:** London Assembly

**Date:** 29 January 2020

**Report of:** GLA Conservatives

**Proposed by:** Susan Hall AM

**Seconded by:** Andrew Boff AM

## **PART A: INTRODUCTION & COMMENTARY<sup>1</sup>**

### **Introduction**

As the Mayor sets out the fourth and final budget of his term, London faces a number of significant challenges. A creaking, crowded transport system; a lack of suitable housing for both first-time buyers and families, and the pressures of an ever-evolving population. But while these are its challenges, London also faces an emergency – a violent crime emergency. Since the Mayor took office in 2016, knife crime and robbery are up 39% and 73% respectively, and 2019 saw the highest number of murders in our city for more than a decade.

Against such a backdrop, we naturally welcome the Government's announcement that London is to receive funding for over 1,300 additional police officers this coming year – as part of a commitment to deliver over 20,000 more officers nationally over the next three years.

Before he took office, the Mayor said keeping Londoners safe was his "top priority". We believe he has broken that promise, and has ultimately failed to grasp the scale of the violent crime emergency facing London. Many of the Mayor's key approaches and decisions taken over the course of his term have not properly reflected London's priorities, favouring the machinery of City Hall over the needs of Londoners.

Therefore, through finding assorted savings at City Hall and across the Greater London Authority bodies, we are proposing the establishment of a £104 million 'Violent Crime Emergency Fund' by the Mayor's Office for Policing and Crime. This fund can be used at the Mayor's discretion to bring London's violent crime emergency to an end, and could be used to pay for anything from

---

<sup>1</sup> This report is made up of two Parts, A and B. The text in Part A does not form part of the formal budget amendments, which are set out in Part B.

additional police officers – over 1,500 more – to crime prevention schemes or community support programmes.

Violent crime is the most serious crisis facing London in a generation, and our amendment to the Mayor’s budget gives him a simple choice; tackle the violent crime emergency, or continue putting Londoners second.

### **Precepts**

Given the urgent need to address the violent crime emergency, we do not object to the Mayor’s decision to increase the policing element of the precept by £10 – raising (an additional) £45.1 million for policing in London.

However, we do not think it is right that the Mayor has, year on year, increased the non-policing element of the precept, while costs at City Hall have soared. Though as last year the Mayor is proposing directing this funding to the London Fire Commissioner’s budget, we are proposing to reverse the 1.99% increase the Mayor has proposed and instead cut the non-policing precept by 1.96% – offsetting the lost revenue by making savings elsewhere in GLA budgets. This way, the fire and rescue service will receive the funding it anticipates, and Londoners will receive a small decrease to the Mayor’s precept charge.

### **Savings Proposals – GLA Mayor**

#### Culture Budget

Culture spending under the current Mayor has soared, from £13.2 million in 2016/17 to £21.7 million proposed for 2020-21 – and two years ago reached a record spend of nearly £25 million.

As with external affairs spending, we think Londoners value feeling safe in their homes and communities over some of the questionable cultural programmes the Mayor’s funding has paid for. London already has a world-class and diverse cultural scene – the benefit derived from ‘Bicycle Ballet’ and ‘We’re all Bats’ events is, in our view, extremely limited.

Therefore, as with the external affairs budget we propose a reduction in the non-staffing element of the culture budget, down to £3.8 million from the £6.8 million proposed for 2020-21. The £3 million saved can then be directed to the Violent Crime Emergency Fund.

#### External Affairs

External affairs spending has increased notably since the Mayor entered office, from around £7 million in 2016-17 to over £10 million proposed in 2020-21

We are unconvinced that Londoners value marketing and PR from their Mayor over genuine action on tackling the big issues facing our city – particularly violent crime.

Therefore, we propose a reversal of the non-staffing external affairs increase which has occurred since the Mayor took office – reducing the cost from £6.5 million to £4 million – and diverting the £2.5 million saved to the Violent Crime Emergency Fund.

### GLA Staff

Staffing figures at the GLA have increased significantly during the Mayor's term. When he first took office, the organisation's 'establishment figure' of full-time equivalent posts was 897. By September 2019 this figure had reached 1,282 and the Mayor's budget proposes adding a further 20 posts – a 45% increase over the course of his term. Though we recognise that the Mayor has some additional devolved responsibilities, such as Adult Education, we believe that this vast increase in numbers is disproportionate to the new powers he has.

The overall staff budget at the GLA has increased significantly from the Mayor's first year, to a proposed £65.5 million for 2020-21. We do not believe Londoners have received value for money for this increase. We therefore propose reducing the staffing budget closer to the level it was when the Mayor first entered office – to £42 million – thereby recognising the additional staff required for delivering the Adult Education programme. It is important to emphasise that the GLA also maintains a high number of vacancies – at the time of writing over 150 – and that any necessary redundancy payments resulting from this change would be covered by reserves.

The resulting £23.5 million saving can therefore be directed to the Violent Crime Emergency Fund.

### Union Street

Due to the increased staff numbers, the GLA currently rents additional office space in the London Fire Brigade's premises in Union Street – at a cost of £1.5 million in 2020. A knock-on effect of reducing staff numbers would be that this space would no longer be required – saving the GLA the cost of rent, and allowing the LFB to make greater commercial use of the space.

### London & Partners

London & Partners is the Mayor of London's 'official promotional agency.' The London Assembly have longstanding concerns about the large annual GLA contribution to London & Partners, and indeed whether a city of London's international calibre requires such significant investment to promote its businesses and tourism opportunities. London & Partners was also originally intended to move towards self-sufficiency, requiring less taxpayers' money over time – but this is now being described as "quite difficult" by the GLA.

At a time when London is facing a violent crime emergency, spending over £13.1 million on a promotional agency simply cannot be justified. Therefore, we propose to completely remove the GLA contribution to London & Partners and use £9.5 million of this saving to fund our proposed cut in the non-policing precept – with the remaining sum redirected to the Violent Crime Emergency Fund.

## **Savings Proposals – GLA Assembly**

### London Travelwatch

Though maintaining a certain level of its funding is a statutory requirement, we believe that London Travelwatch is superfluous to the needs of the GLA, and that its functions can be transferred to both the Transport Committee and Transport Focus.

Therefore, we propose significantly reducing its funding, and would allocate the £1 million saved to the Violent Crime Emergency Fund.

## **Savings Proposals – Transport for London**

### Facility Time

Facility time is time allocated to employees by an employer to undertake trade union activities. Though the annual cost to TfL of financing this has increased from £4.9 million in 2016/17 to £7.9 million in 2018/19<sup>2</sup>.

Moreover, this figure is significantly out of proportion with other large organisations which receive public funds. For example, at £8.6<sup>3</sup> million the entire Civil Service facility time cost is slightly higher than TfL's, but the Civil Service has sixteen times more employees.

In a time of such strained finances for TfL this spend cannot be justified, and we therefore propose reducing this figure back to the 2016/17 level and allocating the £3 million saving to the Violent Crime Emergency Fund.

### 'Junk Food' Ban

The Mayor's ban on advertising for high fat, salt or sugar on the TfL network was formally introduced in February 2019, having been initially proposed in May 2018. The Mayor has previously estimated that the current level of revenue generated by this type of advertising is £13 million per year<sup>4</sup>.

Tackling obesity, particularly in children, is of course an important issue, but we believe this ban is ineffective virtue signalling by the Mayor at the taxpayers' expense. We remain unconvinced that this ban can produce the results that the Mayor hopes for and believe it has been poorly implemented. Therefore, we propose revoking the ban on this advertising, and freeing up the additional revenue this will bring.

<sup>4</sup> <https://www.london.gov.uk/questions/2018/2347#a-134036>

## Nominee Passes

Consistent with budget amendments in previous years, we continue to object to TfL nominee passes as a point of principle. Though we generally support TfL staff making use of the network themselves, this perk allows TfL employees to offer free and non-taxable travel to people in their household.

In their latest business plan, TfL forecast they will end 2019-20 with a deficit of over £300 million. This is despite the Mayor bailing them out with nearly £1 billion every year of retained business rates – money which could otherwise be spent on other services for the benefit of Londoners. In light of TfL’s dire financial situation, it is simply not justifiable for their staff to enjoy such a generous perk.

In calculating the revenue this perk loses TfL, we make the conservative assumption that the average journey undertaken by commuters is between zones 1 and 3, and that only half of those with a nominee pass would buy a travelcard or undertake a similar proportion of journeys if this perk were removed. Based on the current number of nominee passes (52,364<sup>5</sup>) and the cost of a zone 1-3 travelcard (£1,696), we estimate that TfL lose approximately £44.4 million of revenue as a result of the nominee passes scheme. Therefore, we propose scrapping it in its entirety and using the additional £44.4 million of income to support the Violent Crime Emergency Fund.

## TfL Performance-Related Pay

TfL operate a discretionary ‘Performance Award’ performance-related pay scheme, which in 2019 paid out a total of £11.8 million to middle and senior management. Though we appreciate many TfL staff are hard-working, given the organisation’s wider problems and aforementioned deficits and subsidies, such a generous performance scheme cannot be justified – particularly for those paid significant salaries.

The operation of the Performance Award scheme is determined by TfL’s Remuneration Committee’ and approved by the Board. We therefore propose removing from TfL’s retained business rates subsidy the amount equivalent to the Performance Award spend in 2019 for those on Pay Band 4 and above (£8.4 million), and recommending to the Remuneration Committee that the scheme is amended to reflect its removal from said Pay Bands. The saving in retained business rates will be transferred to the Violent Crime Emergency Fund.

## **Total Proposals & Savings**

<b>Proposal</b>	<b>Base from Mayor's 2020-21 Budget / GLA Finance</b>	<b>GLA Conservatives Amendment</b>
<b>GLA Mayor</b>		
Culture Budget – non-staff	£6,800,000	- £3,000,000
External Affairs – non-staff	£6,500,000	- £2,500,000
GLA Staff	£65,500,000	- £23,500,000
Union Street Rent	£1,500,000	- £1,500,000
London & Partners	£13,100,000	- £13,100,000
<b>GLA Assembly</b>		
London Travelwatch	£1,100,000	- £1,000,000
<b>Transport for London</b>		
Facility Time	£7,900,000	- £3,000,000
'Junk Food' Ban	N/A	- £13,000,000
Nominee Passes	N/A	- £44,400,000
Performance-Related Pay	£11,800,000	- 8,400,000
<b>Total Savings/Revenue</b>		£113,400,000
<b>MOPAC</b>		
Violent Crime Emergency Fund		£ 103,904,883
<b>Precepts</b>		
Non-policing Precept	£244,851,493	- £9,495,117

## **PART B: Proposal to approve, with amendments, the Draft Consolidated Budget for the 2020-21 financial year for the Greater London Authority and the Functional Bodies**

### **RECOMMENDATIONS:**

#### **FORMAL BUDGET AMENDMENT**

1. The Mayor's draft consolidated budget (together with the component budgets comprised within it) for 2020-21 be amended by the sum(s) shown in column number 3 of the table for each constituent body, as set out and in accordance with the attached Schedule.

(These sums are the calculations under sections 85(4) to (8) of the Greater London Authority Act 1999 (as amended) ('The GLA Act') which give rise to each of the amounts mentioned in recommendations 2 and 3 below.)

2. The calculations referred to in recommendation 1 above, give rise to a component council tax requirement for 2020-21 for each constituent body as follows:

<b><i>Constituent body</i></b>	<b>Component council tax requirement</b>
<b>Greater London Authority: Mayor of London</b>	<b>£58,103,988</b>
<b>Greater London Authority: London Assembly</b>	<b>£2,634,129</b>
<b>Mayor's Office for Policing and Crime</b>	<b>£770,257,185</b>
<b>London Fire Commissioner</b>	<b>£168,614,895</b>
<b>Transport for London</b>	<b>£6,003,364</b>
<b>London Legacy Development Corporation</b>	<b>£0</b>
<b>Old Oak and Park Royal Development Corporation</b>	<b>£0</b>

3. The component council tax requirements shown in recommendation 2 above, give rise to a consolidated council tax requirement for the Authority for 2020-21 (shown at Line 99 in the attached Schedule) of **£1,005,613,561**.

#### **BUDGET RELATED MOTIONS**

3. [WHERE APPLICABLE, INSERT ANY OTHER BUDGET RELATED MOTIONS REQUIRED]

---

**NOTES:**

***Assembly's powers of budget amendment***

- a. The Mayor is required to set a consolidated and component council tax requirement and it is this amount which the Assembly has the power to amend. The council tax requirement equates to the amount which will be allocated to the Mayor, the Assembly and for each functional body from the Mayor's council tax precept. These individual functional body requirements are consolidated to form the consolidated council tax requirement for the GLA Group.
- b. A simple majority of votes cast by Assembly Members is required to approve any amendment to recommendations (1) to (3) above concerning the Draft Consolidated Budget; abstentions are not counted.
- c. To approve the Draft Consolidated Budget, without amendment, only a simple majority of votes cast is required. Again, abstentions are not counted.
- d. Lines 4 (GLA Mayor), 18 (Assembly), 32 (MOPAC), 46 (LFC), 60 (TfL), 74 (LLDC) and 88 (OPDC) within the expenditure estimates are used to allocate any revenue account deficit being met from reserves relating to a prior financial year. This is nominally allocated to the GLA in line with accounting practice as the precepting authority but in principle the deficit can be attributed to any component budget. At this stage, a collection fund deficit in respect of retained business rates is not anticipated and therefore no figure has been included in the GLA (Mayoral) component budget (line 4). The forecast net collection fund surplus reported by billing authorities for council tax in respect of 2019-20 is treated as an income item (see section e below).
- e. The income estimates calculated under section 85 5(a) of the GLA Act are presented in five parts within the statutory calculations:
  - Income not in respect of Government grants, business rates retention or the council tax precept. This includes fare revenues; congestion charging income; the Crossrail Business rate supplement; and all other income not received from central government, through the council tax precept or for retained business rates. (line 6 for the Mayor, line 20 for the Assembly, line 34 for MOPAC, line 48 for LFC, line 62 for TfL, line 76 for the LLDC and line 90 for the OPDC);
  - Income in respect of specific and special government grants. This includes those grants which are not regarded as general grants and are nominally paid for specific purposes and must generally be applied and allocated to the relevant functional body. This includes Home Office specific grants for MOPAC including counter-terrorism funding and other grants paid for specific purposes to the GLA and the other functional bodies (line 7 for the Mayor, line 21 for the Assembly, line 35 for MOPAC, line 49 for LFC, line 63 for TfL, line 77 for the LLDC and line 91 for the OPDC);
  - Income in respect of general government grants. This includes for MOPAC only its general Home Office grant comprising the core Home Office police, National and International Capital Cities, council tax legacy support and principal police formula component funding streams (line 8 for the Mayor, line 22 for the Assembly, line 36 for MOPAC, line 50 for LFC, line 64 for TfL, line 78 for the LLDC and line 92 for OPDC). The Home Office policing and principal police formula grant reported within line 36 can only be applied to the MOPAC component budget;

- Income in respect of retained business rates including estimated related section 31 grant income payable by the Secretary of State under the Local Government Act 2003 (line 9 for the Mayor, line 23 for the Assembly, line 37 for MOPAC, line 51 for LFC, line 65 for TfL, line 79 for the LLDC and line 93 for OPDC); and

- The GLA's estimated share of any aggregate forecast net collection fund surplus at 31 March 2020 reported by the 33 London billing authorities in respect of either council tax and/or retained business rates. These surpluses are nominally allocated to the GLA Mayoral component reflecting its responsibility for the administration of these funding sources but in principle they can be attributed to any component budget. For the draft budget this figure reflects the GLA forecast share of the forecast net collection fund surplus for 2019-20 of £12.2 million in respect of council tax only (line 10 for the Mayor, line 24 for the Assembly, line 38 for MOPAC, line 52 for LFC, line 66 for TfL, and line 80 for the LLDC). This figure will be updated in the final draft budget to reflect the actual forecasts supplied by billing authorities by the end of January 2020.

- f. A subtotal for income items before the use of reserves (line 11 for the Mayor, line 25 for the Assembly, line 39 for MOPAC, line 53 for LFC, line 67 for TfL, line 81 for the LLDC and line 95 for the OPDC) is included in the proforma and must also be amended to reflect the sum of any amendments made to the income items listed in paragraph d above.
- g. The proposed use of reserves to meet expenditure is recorded in lines 12 (Mayor), 26 (Assembly), 40 (MOPAC), 54 (LFC), 68 (TfL), 82 (LLDC) and 96 (OPDC). The overall income total including the use of reserves and the sum of the income items from paragraph e is recorded in lines 13 (Mayor), 27 (Assembly), 41 (MOPAC), 55 (LFC), 69 (TfL), 83 (LLDC) and 97 (OPDC) – and again this must also be amended to reflect the sum of any amendments made to the income items described in paragraphs d and e above.

***Council tax base and GLA share of billing authority collection fund surpluses or deficits***

- h. For the purposes of the draft budget calculations the council tax requirements are calculated using the 2019-20 approved council taxbases for the 33 London billing authorities updated by 2 per cent – 3,062,940.87 Band D equivalent properties for non-police services and 3,055,000.14 for police services (i.e. excluding the taxbase for the City of London). The Mayor's final draft budget will incorporate the effect of the approved billing authority council taxbases and the GLA's forecast share of retained business rates income for 2020-21 alongside the forecast collection fund surpluses or deficits in respect of retained business rates and council tax for 2019-20 which are recoverable in 2020-21 through an adjustment to the instalments payable to the GLA by billing authorities.

***Compliance with council tax "excessiveness principles" set by the Secretary of State***

- i. A Band D council tax for non police services in the City of London (the unadjusted basic amount of council tax applying in the City) which is 2%, or more than 2%, greater than its unadjusted relevant basic amount of council tax for 2019-20 would be regarded as "excessive" under the draft council tax excessiveness principles published by the Secretary of State in December 2019. The Secretary of State has yet to formally publish draft council tax excessiveness principles for the adjusted basic amount of council tax. However, MHCLG officials have indicated to the GLA that an increase of more than £11.56 in the adjusted relevant basic amount will be deemed excessive.
- j. A Band D council tax for non-police services in the City of London (the unadjusted basic amount of council tax applying in the City) which exceeds £79.94 and/ or a total council tax elsewhere (the adjusted basic amount applying in the 32 London boroughs) which exceeds £332.07 would be regarded as "excessive" under the council tax excessiveness principles to be published by the Secretary of State. This is because a higher Band D amount in either case will result in an increase at or above the thresholds set by the Secretary of State in the principles, in which case the increase is regarded as "excessive," thereby triggering (in either or both cases as applicable) the requirement to hold a council tax referendum of local government electors across the whole of Greater London (excluding electors in the City of London if only the adjusted precept is excessive).

- k. Assembly Groups should therefore seek advice should they wish to propose amendments which have the effect of increasing the precept compared to the figures proposed by the Mayor of £79.94 (the unadjusted amount of council tax in the City) and £332.07 (the adjusted amount in the 32 boroughs), as it is possible that the amendment could breach the assumed excessiveness principles depending on the apportionment of any additional council tax precept income raised between police and non police services.
- l. If an amendment resulting in an “excessive” council tax is passed at the 24 February meeting at which the final draft budget is to be considered, the Assembly will also be required to approve an alternative default or ‘substitute’ budget that is compliant with the excessiveness principles and which would become the budget should any resulting referendum not be passed – in effect one consistent with an unadjusted council tax of £79.94 (in the area of the Common Council of the City of London) and/or an adjusted council tax of £332.07 (in the 32 London Boroughs) depending on which (or both) is/are “excessive”. Part 3 of the Mayor’s draft budget provides advice to Assembly members on council tax referendum issues.

## SCHEDULE

### Part 1: Greater London Authority: Mayor of London ("Mayor") draft component budget

NOTE: Amendments to the draft component council tax will take effect as follows. Where a figure is shown in column 3, the figure in column 2 is amended to the figure in column 3. If no figure is shown in column 3, then the figure in column 2 shall be taken to apply un-amended. If "nil" or "£0" is shown in column 3, then the figure in column 2 is amended to nil.

1	2	3	4
Line	Mayor's Proposal	Budget amendment	Description
1	£1,721,935,692	£1,678,335,692	estimated expenditure of the Mayor for the year calculated in accordance with s85(4)(a) of the GLA Act
2	£1,000,000	£	estimated allowance for contingencies for the Mayor under s85(4)(b) of the GLA Act
3	£18,200,000	£	estimated reserves to be raised for meeting future expenditure of the Mayor under s85(4)(c) of the GLA Act
4	£0	£	estimate of reserves to meet a revenue account deficit of the Mayor under s85(4)(d) of the GLA Act reflecting the collection fund deficit for retained business rates
5	<b>£1,741,135,692</b>	<b>£1,697,535,692</b>	aggregate of the amounts for the items set out in s85(4) of the GLA Act for the Mayor (lines (1) + (2) + (3) + (4) above)
6	-£262,932,000	-£	estimate of the Mayor's income not in respect of Government grant, retained business rates or council tax precept calculated in accordance with s85(5)(a) of the GLA Act
7	-£311,000,000	-£	estimate of the Mayor's special & specific government grant income calculated in accordance with s85(5)(a) of the GLA Act
