Dear Sir,

I am writing on behalf San UK the operator of SANIFAIR toilet facilities in the UK. SANIFAIR is the main operator of public washrooms in Europe, headquartered in Germany. SANIFAIR deploys staffed, high technology facilities with the highest standards of hygiene and cleanliness. In the UK we will be deploying Changing Places facilities as standard with our operations.

Having read the recently released London Plan we were very impressed to hear the Mayor's of London specific statement in regards to the adoption of the of the British Standard BS8300 for the Changing place facility in London. We believe this will strongly encouraged the roll out of these much needed facilities across the capital. We were also interested to hear about the ideas related gender-neutral toilets. We would be very keen to understand in more detail the expectations and detail of the plan as it relates to public toilet provision. Can you please advise how we best engage with the GLA on these subjects.

Best regards,

**Alberto Brochetta**
