I represent Your London Base a company that is looking to bring in small purpose built blocks of high quality HMOs. Our product has been given the backing of your consultants BNP Paribas Mr Anthony lee. We have met with Jaime Ratcliffe and would welcome working with the GLA.

we want to revolutionise the HMO market, we feel it's no longer fit for purpose, ours is a interim housing product to help get people on the property ladder.

We can increase density, reduce rents and house more people in quality accommodation.

Happy to help and explain more
