

# **AEB Procured Action Note**

Changes to the final supplementary data upload deadline

Publication Date: 4<sup>th</sup> August 2023

Version: 01

Paragraph 431 of the [GLA AEB Procured Funding and Performance Management Rules 2019-23 v12](#), states that “*organisations awarded contracts to deliver this AEB Procured provision will need to submit an additional GLA ESF Supplementary Funding Claim in early August 2023 capturing all outputs and ESF Results delivered up to 31 July 2023.*”

After further consideration, the GLA has decided to extend the submission date for the additional GLA ESF Supplementary Funding Claim to **Thursday 19<sup>th</sup> October 2023**, to align with the final ILR and EAS submissions deadlines.

The extension to the supplementary data deadline is expected to give providers more time to identify and report eligible ESF Outcomes.

Providers should continue to follow the guidance outlined in the [GLA AEB Procured Supplementary Data Collection template v5.1](#) to determine what learning delivery counts towards ESF-match statistics. Further guidance on learning delivery that may not count towards ESF-match statistics is outlined in pages 21-23 of the [GLA AEB Technical Guidance Note 2022/23 v3](#).

If you require any further information about this change please contact your Provider Manager or [AEB@london.gov.uk](mailto:AEB@london.gov.uk)
