Dear ██████████

Thank you for your request for information which the GLA received on 4 February 2018. Your request has been dealt with under the Freedom of Information Act 2000.

You asked for a list of estate regeneration schemes in London for which the GLA already has a contract to allocate grant to a registered provider (including the name of the scheme, the registered provider and borough). You also asked for a list of estate regeneration schemes in London with full or outline planning permission but which do not appear on the previous list.

Please find attached the information we have identified as being within the scope of your request. However, please note that this is based on the information that the GLA has on record at a particular point in time, based on the information that partners have shared with us. This is a list of live funding contracts in relation to known estate regeneration schemes. In addition to this list there may also be historically funded schemes with later phases yet to deliver and other schemes that we are not aware of as estate regeneration. This information is likely to be partial and subject to change, and should not be seen as a definitive list of all schemes that meet the criteria listed in your request.

You also requested a list of estate regeneration schemes for which a ballot has already been held in which there was a 'yes' vote. The GLA does not hold this information.

Your other queries relate to the proposal for a funding condition to require resident ballots in estate regeneration schemes that require GLA funding. This proposal is the subject of a live consultation, to which you can submit your comments and feedback for consideration. You can access the consultation on our website at: <https://www.london.gov.uk/what-we-do/housing-and-land/improving-quality/good-practice-guide-estate-regeneration>

If you have any further questions relating to this matter, please contact me, quoting the reference MGLA060218-2820.

Yours sincerely

Paul Robinson
Information Governance Officer
