

# MAYOR OF LONDON

Seaside & Country Homes assesses an applicant's priority based on the size of home they would vacate should they move. Therefore, the larger your property, the greater priority you will have.

The Seaside & Country Homes properties have varying demand levels and we can only register you for locations where you would have a realistic chance of being nominated to a vacancy.

Therefore, before selecting your preferred areas on the application form, please check below for the locations you can choose given the size of property you currently occupy. Please note that some locations only have flats or bungalows whilst others have both. If a location has both flats and bungalows these may have different demand levels and where this is the case, we specify flats or bungalows in the lists below. For more information on what types of property can be found in the Seaside & Country Homes areas, please refer to the Areas & Properties Guide. If you do not have a copy you can download or view one at [www.london.gov.uk/seaside](http://www.london.gov.uk/seaside)

Remember that you can select up to 10 locations and that pets are not allowed in most flats. We also cannot guarantee a move to everyone who applies.

## **If you currently live in a studio or one-bedroom property you can select the following locations:**

Cambridgeshire – March
