Dear Nick,

Thank you for sharing the petition about safety concerns with the vehicle exit from the Richmond Athletic Ground onto the A316.

My thoughts are with the family and friends of the woman who was tragically killed while cycling in Richmond. Every death on London's roads is one too many. This is why I have adopted the ambitious goal of Vision Zero, which is the elimination of all deaths and serious injuries from London's streets by 2041.

Since the collision, the Richmond Athletic Association has made immediate improvements to signage and road markings within its car park, and the vegetation to the east of the exit has been pruned back to improve visibility. In addition, Transport for London (TfL) has provided new cycle logos on the footway, directly in front of the exit, to raise driver awareness.

TfL is assisting the Metropolitan Police Service with its continuing investigation into the collision and will consider additional safety improvements in collaboration with a number of local stakeholders, including Richmond Council, Richmond Cycling Campaign and the emergency services. I have asked TfL to update you on this matter once the police investigation is complete.

Thank you again for writing to me.

Yours sincerely,
