## Mayoral Community Infrastructure Levy (MCIL): Annual CIL Rate Summary 2023

In accordance with Regulation 121c of the Community Infrastructure Levy (CIL) Regulations 2010 as amended, the Mayor of London is required to issue an Annual CIL Rate Summary. This document contains the Mayoral CIL rates adjusted for inflation for the calendar year 2023.

Any CIL liable planning applications approved between 1 January 2023 and 31 December 2023 will have the indexation rate applied in accordance with this document. For Mayoral CIL, the Mayor acts as the charging authority, and the thirty-five local planning authorities in London act as collecting authorities, collecting the Mayoral CIL on the Mayor's behalf.

Mayoral CIL first took effect on 1 April 2012 and is referred to as MCIL1. The Building Cost Information Service (BCIS) 'All-in Tender Price Index' applicable for the year the MCIL1 charging schedule took effect is **223 (lc rate)**.

A revised Mayoral CIL charging schedule subsequently took effect on 1 April 2019 and is referred to as MCIL2. The BCIS Index applicable for the year the MCIL2 charging schedule took effect is **330 (lc rate)**.

For planning permissions granted in the year 2023, the Royal Institution of Chartered Surveyors (RICS) CIL Index to be applied is **355 (lp rate)**.

The formula used to calculate the annual CIL rates is set out below.

The annual CIL rate is calculated by applying the following formula:

Charging Schedule Rate (**R**) *multiplied by* Index Figure for Year Planning Permission Granted (**lp**) *divided by* Index Figure for Year Charging Schedule Took Effect (**lc**).

To summarise:  $R \times \frac{lp}{lc}$

Tables 1 to 3 overleaf set out the MCIL1 and MCIL2 rates adjusted for inflation and applicable to planning permissions granted in the calendar year 2023.
