## Agenda item 2: Smarter London Together – implementation plan discussion

The first presentation below was made by the CDO, Theo Blackwell, on the adopted Smarter London Together Roadmap adopted in June 2018. For the adopted roadmap, see https://www.london.gov.uk/what-we-do/business-and-economy/supporting-londons-sectors/smart-london/smarter-london-together

The implementation plan is being published to the public (in beta) as the CDO's Report Card at https://trello.com/b/QVQOU1zG/

SMART LONDON CAMP 2018

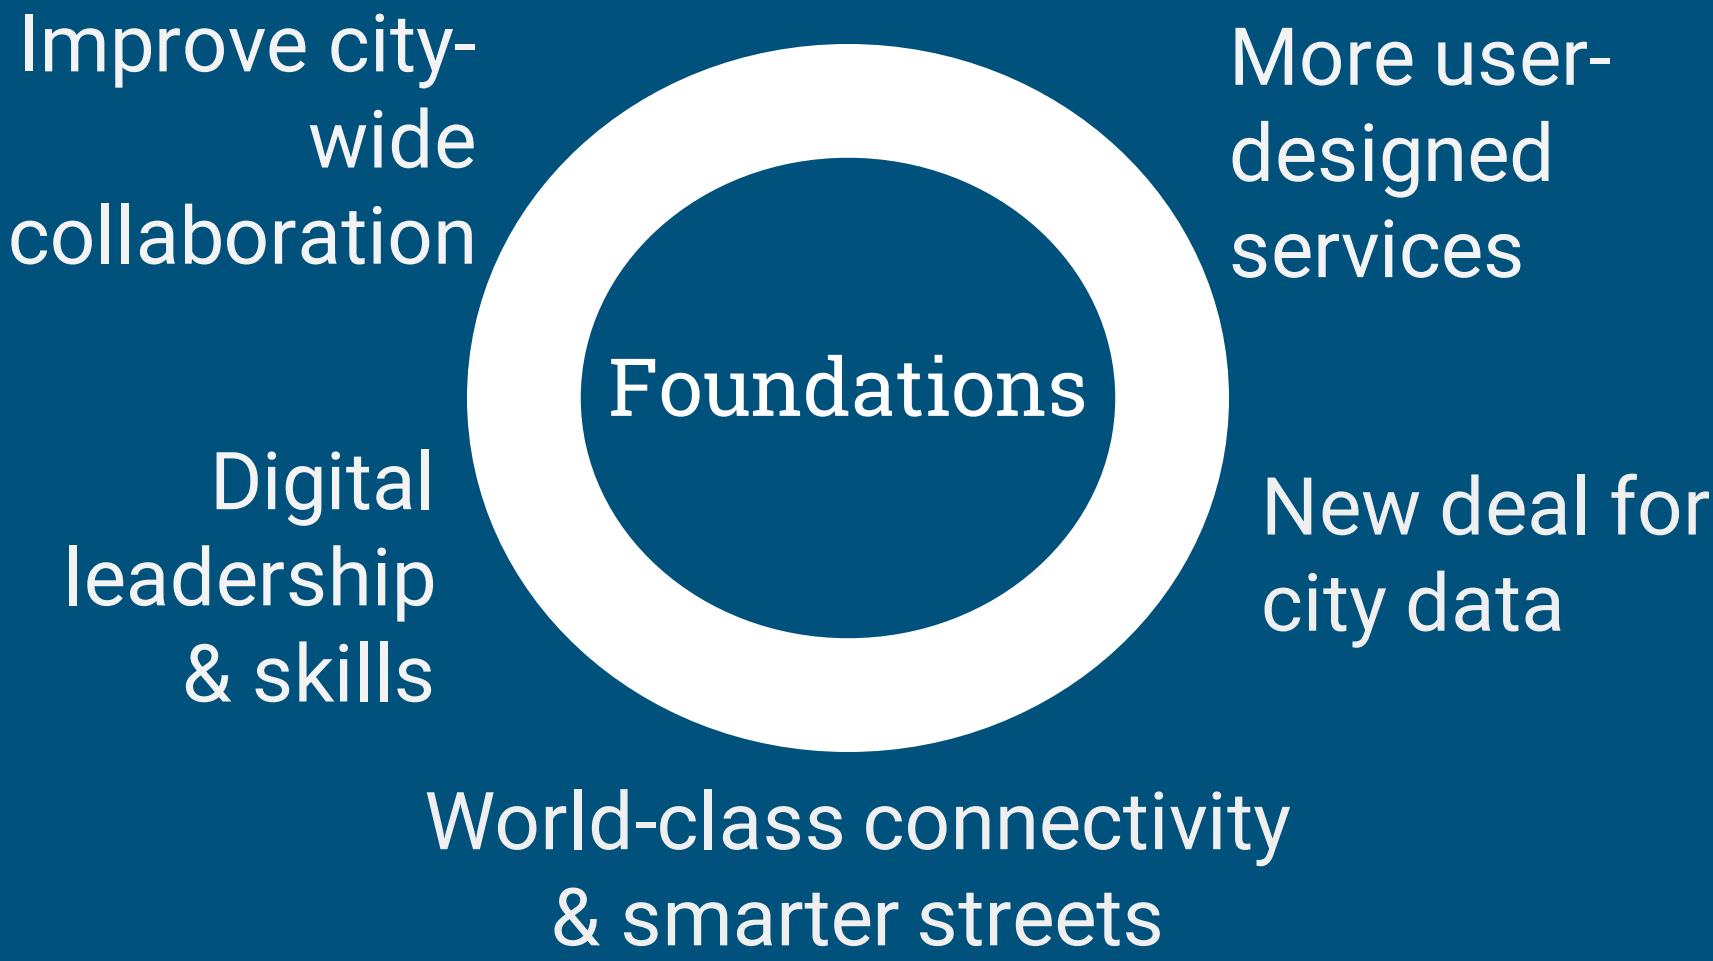
# Takeaways

- ➔ Progress uneven across capital
- ➔ Not one but many smart cities
- ➔ Demand not for uniformity, but for consistency in approach
- ➔ “More boldness” - trying things even if they don’t succeed at first
- ➔ “Not about just about gadgets or systems…” - put people first
- ➔ “Can’t build AI on legacy...”



Improve city-wide collaboration
More user-designed services
Foundations
Digital leadership & skills
New deal for city data
World-class connectivity & smarter streets

# More user-designed services

- ➔ Leadership in design and common standards to put users at the heart of what we do
- ➔ Developing new approaches to digital inclusion to meet new challenges
- ➔ Launching a new Civic Innovation Challenge to spur innovation from the tech sector
- ➔ Renewing civic platforms to engage citizens and communities better
- ➔ Promoting more diversity in tech to address inequality

# Strike a new deal for city data

- ➔ Launching the London Office for Data Analytics (LODA) programme to increase data sharing and collaboration for the benefit of Londoners
- ➔ Developing a city-wide cyber security strategy to coordinate responses to cyber-threats to businesses, public services and citizens
- ➔ Strengthening data rights and accountability to build trust in how public data is used
- ➔ Supporting an open ecosystem to increase transparency and innovation

# World-class connectivity & smarter streets

- ➔ Launching a new Connected London programme to coordinate connectivity and 5G projects
- ➔ Proposing planning powers, like requiring full fibre to the home for all new developments, to enhance connectivity in the future
- ➔ Enhancing public wifi in streets and public buildings to assist those who live, work and visit London
- ➔ Supporting a new generation of smart infrastructure through major combined procurements
- ➔ Promoting common standards with smart tech to maximise benefit

# Enhance digital leadership & skills

- ➔ Enhancing digital and data leadership to make public services more open to innovation
- ➔ Developing workforce digital capability through the Mayor's Skills Strategy
- ➔ Supporting computing and the talent pipeline Londoners from early years onwards
- ➔ Recognising the role of cultural institutions engaging citizens in the digital world around them

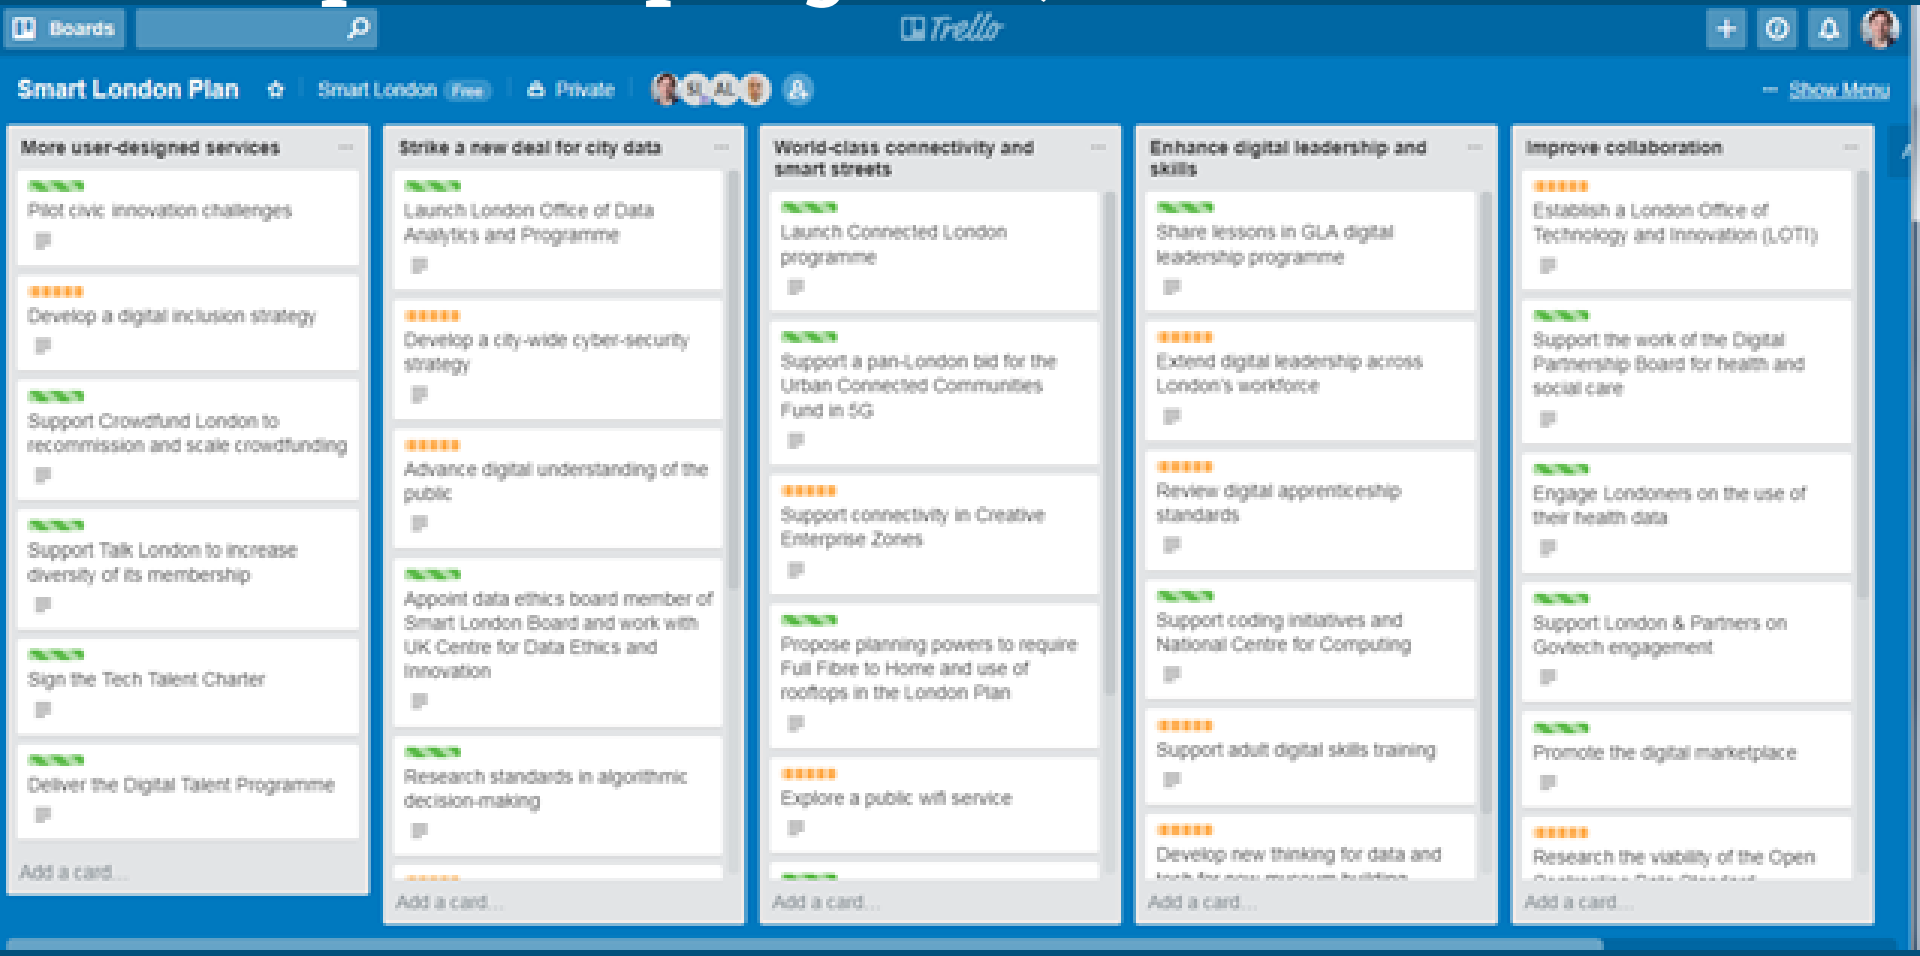
# Improve city-wide collaboration

- ➔ Establishing a London Office of Technology & Innovation (LOTI) to support common capabilities and standards for future innovation
- ➔ Promoting MedTech innovation in the NHS and social care to improve treatments
- ➔ Exploring new partnerships with the tech sector and business models
- ➔ Supporting better GLA Group digital delivery to improve effectiveness
- ➔ Collaborating with other cities in the UK and globally to adopt and share what works

*“A Smart City is a city that integrates its systems - from local labour markets to financial markets, from local government to education, healthcare, transportation and utilities - to drive efficiency for the benefit of its inhabitants.”*

*“A smarter city is a more collaborative, connected and responsive city. It enables greater data innovation to meet citizens’ needs.”*

# Transparent progress, measured



# Our approach

- ➔ Pivot to support digital transformation capability
- ➔ Recognises diversity of approach across London but challenges fragmentation
- ➔ Emphasises collaboration - data, people, resources - at all levels
- ➔ Celebrates boldness in innovation

# What you can do

- ➔ How do we engage better?
- ➔ Consider the missions and initiatives
  - ◆ Tech Talent Charter
  - ◆ LODA use-cases
  - ◆ Workforce skills
    - Leadership
    - Levy & standards
  - ◆ LOTI

## Agenda item 3: London Office for Technology and Innovation (LOTI) update

This was a discussion of policy in development. This presentation will be published in accordance with the adopted MD for the London Office for Technology and Innovation that is scheduled to go before the Mayor for a decision in October 2018.
