

Methodology:

- The survey was in the field from 16 July 2020 until 4 August 2020
- It was an online, self-selecting survey
- It was completed by 450 individuals
- Weighting was calculated using the 2011 Census to provide proportionate sub-groups

Table 1: As a result of the Covid-19 pandemic do you want to move to a new home? (n=416)

	%
Yes	33
No	54
Don't know	13

Table 2: Where would you like that home to be? (n=136)

	%
Out of London	46
In London	43
Don't know	11

Table 3: What is the likelihood of you moving to a new home within the next 12 months? (n=136)

	%
Definitely	30
Probably	24
Possibly	19
Probably not	16
Definitely not	6
Don't know	5

Table 4: What are the constraints for moving?¹ (n=74)

	%
Financial uncertainty	27
Location of work	25
Cost of moving	25
Ties to current location	10
Childcare and/or caring responsibilities	9
Live in social housing	4
Other	0

Table 5: As a result of the Covid-19 pandemic, which of the following have become more important to you when thinking about where you live? (n=1,123)²

	%
Access to private outside space or access to more private outside space	19
Proximity of public green space e.g. parks, commons, woodland	17
A generally more spacious home e.g. room sizes	12
An additional bedroom for use as an office	11
Proximity of local shops	9
Proximity to family and/or friends	9
Ability to walk and/or cycle to work	8
Proximity of health services e.g. doctors and dentists	5
The number of bedrooms	4
Other	3
Proximity of community centres or other leisure activities	1
Living without people who are not part of your family	1
Proximity of schools	1

¹ For respondents who would like to move but said the likelihood of moving within the next 12 months was 'probably not' or 'definitely not'

² Respondents could pick up to three
