2019 Gender pay gap reporting

Background

Developing a workforce which reflects the city it serves is a key priority for the Greater London Authority (GLA). The GLA is fully determined to tackle inequality in any form and publishing the gender pay gap supports this aim.

The GLA first published a gender pay gap report in 2016, ahead of any legislative requirement to do so. Since this initial report the Equality Act 2010 (Gender Pay Gap Information) regulations came into force in 2017, which require public bodies with 250 or more employees to report on their gender pay gap. GLA published subsequent March 2017 and March 2018 reports, together with a programme of activity to help address its gender pay gap.

This report reflects the position as of March 2019. In places throughout the report comparison is made with the March 2018 findings to demonstrate how the Authority is continuing to make progress in its ambition to close the gender pay gap.

It is worth noting when reviewing the findings that salaries at the GLA are determined through a job evaluation scheme, so that the Authority pays the same salary to roles of equal weight. Job evaluation evaluates the job and not the post holder. It makes no reference to gender or any other personal characteristics of existing or potential job holders.

The GLA recognises that gender identity is not limited to the categories of male and female. Although gender pay gap regulations require the GLA to report on all staff as men and women, the GLA appreciates that some colleagues may not identify within this gender binary. The GLA welcomes and values colleagues of all gender identities. It recognises non-binary identities through the use of gender neutral language throughout its HR policies and communications and by working closely with its LGBT+ Staff Network group.

Methodology

For the purposes of this report all calculations are in accordance with the **Government Guidance**.

The following formula is used to calculate the pay gap:

$$\frac{A - B}{A}$$
 × 100

where A is the mean/median hourly rate of pay for relevant male staff; and, where B is the mean/median hourly rate of pay for relevant female staff.

As a public sector body, the snapshot date for the data collection was 31 March 2019. The data, where appropriate, has been broken down by both full-time and part-time staff.

As at 31 March 2019, there were 1043 employees in the GLA of which 1030 were counted for gender pay gap reporting purposes. Of the 1030, 58% (593) were women. The GLA is a single status organisation and does not have different staff groups i.e. all staff are officers, and so office holders like the Assembly Members and the Mayor are excluded.

Overall Gender Pay Gap Summary

As at 31 March 2019 the GLA had a median gender pay gap of **0.83%** and a mean gender pay gap of **5.10%**. This is an improvement on the position last year where the median gender pay gap was 4.82% and the mean was 6.73%. The GLA outcomes also compare favourably to both the national and London picture. The national median gender pay gap for all workers is reported as 17.9% and the mean gender pay gap is 17.0%. The median gender pay gap for London is 16.7% and the mean figure is 21.4%. ¹

Whilst the overall position is improving and the GLA is in a strong position in relation to comparator organisations, ongoing work is needed in order to fully close the gender pay gap.

Table 1: Overall gender pay gap (all staff), March 2019

O	verall Median Pay Gap	Overall Mean Pay Gap			
	Median Hourly Pay (all staff)		Mean Hourly Pay (all staff)	Staff numbers	
Female	£24.90	Female	£25.67	595	

¹ The national and London data are derived from the 2018 Annual Survey of Hours and Earnings(ASHE) report this being the most recent survey for comparative purposes.

Male	£25.11	Male	£27.05	435
Pay Gap	0.83%	Pay Gap	5.10%	

Table 2: Overall gender pay gap (all staff), March 2018

0	verall Median Pay Gap	Overall Mean Pay Gap				
Median Hourly Pay (all staff)		Mean Hourly Pay (all staff) Staff				
Female	£23.23	Female	£24.50	495		
Male	£24.41	Male	£26.27	400		
Pay Gap	4.82%	Pay Gap	6.73%			

Analysis of full and part time staff

The tables below show the median and mean pay gap for both full and part time workers. There is a median pay gap of 4.18% and a mean pay gap of 6.38% for part time workers. This has reduced since last year. The number of employees working part time has risen to 140 employees in the last year and 89% of these part time workers are women. The GLA is committed to offering flexible working for its staff and believe that this is one way to improve representation of women (who are typically more likely to work part-time) in the workforce.

Table 3: data by full time and part time, March 2019

	Median Hourly Pay (full time)	Median Hourly Pay (part time)	Mean Hourly Pay (full time)	Mean Hourly Pay (part time)
Female	£23.84	£25.44	£25.32	£26.99
Male	£25.11	£26.55	£26.98	£28.83
Pay Gap	5.06%	4.18%	6.15%	6.38%
Difference	£1.27	£1.11	£1.66	£1.84

Table 4: data by full time and part time, March 2018

	Median Hourly Pay (full time)	Median Hourly Pay (part time)	Mean Hourly Pay (full time)	Mean Hourly Pay (part time)
Female	£23.23	£24.11	£24.50	£24.50
Male	£24.41	£26.64	£26.24	£27.46
Pay Gap	4.83%	9.50%	6.63%	10.78%
Difference	£1.18	£2.53	£1.74	£2.96

Quartile Summary

In accordance with the methodology set out in the regulations, the data is also presented by quartiles below by "dividing the workforce into four equal sized groups and separating them according to the hourly pay rate, starting from lowest paid to the highest paid". There remains a negative median and mean gender pay gap in the lower quartile, which suggests that women continue to earn more at the lower levels than men. Like last year, there remains a mean and median pay gap in the upper quartile, but both have reduced.

Addressing the gender pay gap at the senior levels is a top priority for the GLA.

Table 5: Quartile Mean Hourly Pay, March 2019

Mean Hourly Pay									
Female Male									
	Hou	ırly rate	Ηοι	ırly rate	Pay Gap	% Women

upper quartile	£31.61	£35.69	11.43%	50					

Grade Summary

The GLA has chosen to analyse gender pay in relation to its grading structure to provide a more in-depth look at the distribution of pay across the organisation. The tables below also show spot salaries and London's Living Wage which are fixed rates not linked to defined spinal column points within the GLA's grading structure. For the spot salaries and London's Living Wage there is no progression up to or beyond the rate for each position compared to the other grades which each have five incremental steps within each grade.

The data shows a negative mean pay gap for a number of grades including the most senior level in the organisation (Spot) where there is a reverse mean pay gap of-7.10%. When looking at the median, however, there is a 3.23% gender pay gap at the Spot level. The formalised grading system accounts for less dramatic variances when analysing the median data as this shows the middle values for men and women against each grade. The length of service of staff is a contributory factor to the median differences and the salaries for all staff are determined through job evaluation rather than on personal characteristics or as a result of negotiating their salary.

Table 9: Mean hourly pay by grade, March 2019

Mean Hourly Pay								
		Fema	le		Male		Pay Gap

----------	-----	-----	-----	-----	--

Bonus payments

55 staff in the GLA received additional, one-off recognition payments on top of their basic salary. More women than men received payments (56%) but the bonus gender pay gap has increased since last year. This can be largely explained by a small number of male staff receiving larger-than-average recognition payments for discrete projects. In January 2019, the Chief Officer introduced a central review process for all recognition payment requests to ensure greater rigour and consistency in their application. A review of the policy relating to recognition payments is also scheduled for the coming year and diversity will be a key focus of this work.

Table 17: Mean bonus pay gap, March 2019

Mean Hourly Pay							
	Female		Male	Pay Gap			
	Annual payment	No	Annual payment	No

Action Planning

This report should be read alongside the GLA's published Gender Pay Gap Action Plan. This is a live action plan and the GLA is making good progress against a number of the initiatives set out in the plan. The GLA will continue to monitor its progress against the action plan and provide an annual update on progress as an annexe to its gender pay gap report.

The GLA, along with GLA Group organisations, has developed a framework to support the Mayor in delivering his vision for a fair and equal city. This framework – known as the Diversity and Inclusion Action Standard – focuses on action the GLA can take in order to achieve a truly diverse workforce reflective of London, and develop inclusive cultures in which all groups can flourish. The Diversity and Inclusion Action Plan sets out the ambition to work towards eliminating pay gaps between different groups. The GLA's gender pay gap and related action plan support delivery against this commitment.

This information will be updated annually in line with the regulations. To find out more about the GLA workforce composition please see the information on the GLA workforce profile.
