

Although I am not yet minded to hold further hearing sessions, a number of commentators have made specific wording suggestions for alterations to the plan. In the spirit of the regulations, they have a Right to be Heard. So, I am asking the Programme Officer to contact the following representors and tell them that, although the Inspector is not presently minded to hold further hearing sessions, he will do so if they insist on their right to be heard in respect of those representations where they have made a request for a specific change to the plan. Before they decide, would they please check whether the [OPDC's response](#) is acceptable to them (in some cases the OPDC has accepted the representation and proposes further changes). **The deadline to submit this to the Programme Officer is 17.30 28th October.**

Correspondent 13 (Canal and River Trust), representations 10 & 11 (specific changes to P4 and P6)
