Express Preliminary UXO Risk Assessment

Description of Service

For the majority of sites in the UK, the risk of encountering buried UXO will be very low or negligible and can be screened out at a very early stage without the need for further research or proactive risk mitigation measures. However, construction professionals often do not have time and resources to undertake this screening process themselves. 1st Line Defence can produce a quick, cost-effective Express Preliminary UXO Risk Assessment for any site in the UK.

The assessments are written by graduate researchers and UXO specialists, and are entirely bespoke to your project. Each assessment makes use of our extensive historical archives, library, internet resources and unique geo-databases, which include datasets not available in the public domain. Site specific factors such as the site location in relation to industrial facilities and targets of military importance, extent of offensive bombing, records of known unexploded bombs, defensive measures, post war activity, ground conditions and the scope of the current proposed works are taken into consideration.

The result is a 3-4 page letter format document, the purpose of which is to determine whether further research is required in the form of a Detailed UXO Risk Assessment, or whether we can confidently assess that the risk is low enough to recommend that no further action is taken.

Review of Charges

List #	Description	Est. Qty	Unit Rate	Est. Total
1	Express Preliminary UXO Risk Assessment per site	1	£150	£150
Estimated Total:				£150

This quotation is subject to our standard terms and conditions of business, a copy of which is attached or available upon request

Specific Terms and Conditions

General

1. Prices are exclusive of VAT and are valid for 90 days from the date of quotation.
2. Our invoices are dated on completion of our service/s or if the services continue to be provided for a period greater than one month, on a monthly in arrears basis.
3. Payment Terms are within 30 days of the date of the invoice. Full cleared funds should be paid into to a bank account nominated by 1st Line Defence and time for payment shall be of the essence of the Contract.
4. 1st Line Defence Limited standard terms and conditions of sale apply but to the extent of any conflict of terms between the two, these additional terms override the conflicting terms in our standard form terms.

Service Specific - Risk Assessments (Express)

1. 1st Line Defence generally requires 1-2 days to complete the desk-top study.
2. Rates include the provision of one electronic copy and, if required, one hard copy of the report.
3. A charge of £40 will apply for each additional hard copy of the report that is required.
4. Our invoices dated on completion of the Services or if the services continue to be provided for a period greater than one month on a monthly in arrears basis.
5. Payment Terms are within 30 days of the date of the invoice. Full cleared funds should be paid into to a bank account nominated by 1st Line Defence and time for payment shall be of the essence of the Contract.
6. Prices exclude VAT and are valid for 90 days from the date of quotation.
7. 1st Line Defence Limited standard terms and conditions of sale apply but to the extent of any conflict of terms between the two, these additional terms override the conflicting terms in our standard form terms.
8. Prior to commencement of the study please provide the following information, if available:
 - i. Plan showing a 'red line' boundary of the area of interest.
 - ii. Outline of the intrusive works likely to be undertaken.
 - iii. Site specific geotechnical data.
