

London Plan Examination in Public: Agenda and Participants

9.30am Tuesday 26 March & Wednesday 27 March 2019

Green infrastructure, open space and urban greening [M64]

Agenda

PLEASE NOTE:

This Matter was originally programmed for two sessions on the mornings of Tuesday 26 March and Wednesday 27 March. Rather than divide the Matter into two the hearing session on Tuesday 26 March will now deal with Matter 64 and Policies G1, G4 and G5 in totality. If further time is required then the session will be extended and take place on Wednesday 27 March.

The Mayor has now published further suggested changes to Policies G1 and G4. [FSC/15]

Panel's Opening Announcements

M64. Would the policies for green infrastructure assist in creating a healthy city in accordance with Policy GG3 and will they provide an effective strategic context for the preparation of local plans and neighbourhood plans? Are Policies G1, G4 and G5 and their detailed criteria justified and necessary and would they provide an effective basis for development management? How would they affect the implementation of Policies GG4 and GG5 on delivering the homes Londoners need and growing a good economy?

- a) Does Policy G1 provide an adequate framework for green infrastructure including the role of waterways (blue space) and the access to it?
- b) Does Policy G4 provide sufficient protection for the amount and quality of all green and open space including private gardens and on housing estates? Is the categorisation in Table 8.1 justified? Should the policy refer to the improvement of existing spaces?
- c) Is the expectation that Boroughs develop an Urban Greening Factor based on Policy G5 and Table 8.2 justified with particular regard to viability and practicality?
